
EXECUTIVE SUMMARY REPORT

BELLEVILLE SCHOOL DISTRICT

May 22nd – May 26th, 2017

The Past Week:

What an amazing turnout we had at the groundbreaking ceremony on 5/19! The groundbreaking marked the first time in 20 years that the Community passed a referendum for school improvements. As a result, the students and community of Belleville will be able to take advantage of new and renovated spaces at both the Middle/High School as well as the Intermediate School. Working taking place this summer will be focused to the MS/HS building, and includes a Science, Technology, Engineering, and Math (STEM) remodel and addition, an expanded and remodeled weight room, an improved secured entry/reception area at the High School, new bathrooms, and a concessions area. What an exciting and busy summer we have ahead, so stay tuned for more weekly updates throughout the course of the project!

Parents, teachers, students, administrators, board members, community members and others from the construction team took place in the groundbreaking event on 5/19.

Did you know? As part of Findorff's ongoing innovative initiatives, a dedicated group of sustainability leaders launched **Findorff Footprint**. This in-house resource tracks the implementation of various sustainability goals within the walls of our own buildings, on the projects we work on, and throughout the communities we serve.

EXECUTIVE SUMMARY REPORT

BELLEVILLE SCHOOL DISTRICT

May 22nd – May 26th, 2017

A picture of the excited kids at the intermediate school groundbreaking. Work here does not start until Fall 2017. Look closely – some confetti poppers in the background!

Work shall not proceed until the inspector has approved the various stages of construction or two business days have elapsed since the day of inspection request. This permit will expire 24 months after the date of issuance if the building's exterior has not been completed. Keep this card posted until final inspection has been made. (WI Stats. 101.63)
